

Project Contribution Statement

Course: CSC13003 - Software Testing

Class: 23KTPM4

Group: Group 03

Project: T01 - GUI & Usability Testing

Evidence snapshot: Repository history and documents available on 2026-07-23

Team confirmation required before submission. The official template requires actual task hours and a student-agreed final percentage. Those values were not recorded in the repository, so this draft leaves them as TBC rather than inventing them.

1. Summary

Metric	Current evidence-based value
Students working on the project	4
Distinct task records below	27
Actual task hours	TBC by team
Non-merge Git commits visible across local/remote branches	37
Project score	For TA entry only
Maximum student percentage	TBC by team

The Git count groups known author aliases:

- Nguyễn Bình An: CAT0-0TAC , Nguyễn Bình An
- Phạm Ngọc Gia Bảo: Phạm Ngọc Gia Bảo , Bao , giabaocode
- Lee Kun Da: kunda
- Lưu Ngô Quốc Bảo: BaoBeiii

2. Student summary

No.	Student ID	Full name	Tasks	Task share	Hours	Hour share	Git commits	Git share	Final student percent
1	23127149	Nguyễn Bình An	5	18.5%	TBC	TBC	2	5.4%	TBC
2	23127027	Phạm Ngọc Gia Bảo	9	33.3%	TBC	TBC	15	40.5%	TBC
3	23127035	Lee Kun Da	6	22.2%	TBC	TBC	13	35.1%	TBC
4	23127327	Lưu Ngô Quốc Bảo	7	25.9%	TBC	TBC	7	18.9%	TBC
		Total	27	100.0%	TBC	100.0% after entry	37	100.0%	100.0% after agreement

Task share and Git share are reference indicators only. The official template explicitly asks students to use tasks, hours, and Git as references when agreeing on the final percentage; it does not define a purely mechanical weighting.

3. Task ledger

3.1 Nguyễn Bình An - 23127149

No.	Task description	Hours	Evidence
1	Research Manual UI Testing, BrowserStack, and Claude Vision for the UI-testing survey	TBC	Tool_Survey_Proposal.md ; commit b38d8dc
2	Write and revise the UI-testing comparison matrix and selection rationale	TBC	Tool_Survey_Proposal.md ; commit b38d8dc
3	Update Week 4 progress and AI-use reporting for the UI-testing survey	TBC	weekly_reports/weekly_report_w4.md ; commit 3a4c4af
4	Add Gemini-session evidence for the UI-testing tool survey	TBC	ai-disclosure/screenshots/Nguyen Binh An/ ; commit 3a4c4af
5	Act as group lead and own presentation/facilitation integration	TBC	Team-role table in README.md ; section ownership in final submission

3.2 Phạm Ngọc Gia Bảo - 23127027

No.	Task description	Hours	Evidence
6	Scaffold the seminar repository and initial team documentation	TBC	Commit 955cf9b
7	Draft the initial tool-survey proposal and tool pairing	TBC	Commit 541b7b8
8	Create the Stage S2 scope-note skeleton for instructor review	TBC	Commit 9192b4f
9	Create initial User Guide, Activity Worksheet, and slide-outline skeletons	TBC	Commit 423b602
10	Translate and normalize repository content for the team	TBC	Commit f5c3b85
11	Build the usability deep-study/Maze study skeleton without fabricated results	TBC	DeepStudyHands0n.md ; commit f765f63
12	Prepare and document the Maze checkout study draft	TBC	maze_checkout_task_outline_draft.png ; commit f765f63
13	Write the Maze usability User Guide and inspect the EShop checkout flow	TBC	User_Guide.md on branch origin/Bao/user_guider_V1 ; commit dc38854
14	Record AI-use evidence and weekly-report evidence for usability work	TBC	Branch evidence under ai-disclosure/screenshots/PNGBA0/ and weekly_reports/usability_evidence/

3.3 Lee Kun Da - 23127035

No.	Task description	Hours	Evidence
15	Create the report frame and organize course reference files	TBC	Commit 95333ea
16	Draft the usability-testing portion of the tool survey	TBC	Commit 762b928
17	Complete and rename the usability tool-survey deliverable	TBC	Commit cacbacd
18	Add Gemini/Claude AI-use evidence for the tool survey	TBC	ai-disclosure/screenshots/Lee Kun Da/ ; commits 4e3f6e2 , cacbacd

No.	Task description	Hours	Evidence
19	Maintain Week 4 and Week 5 progress reports	TBC	Commits e06dd35 , 6c7b1fb , ce1ec63
20	Edit the Maze usability User Guide on the dedicated branch	TBC	Branch origin/Da/user_guide ; commit 090be8f

3.4 Lưu Ngô Quốc Bảo - 23127327

No.	Task description	Hours	Evidence
21	Write and revise the Manual UI Testing + Claude Vision deep-study section	TBC	DeepStudyHands0n.md ; commits 18c2b8a , 87913f2
22	Maintain Week 4 task reporting and AI-use declarations	TBC	weekly_reports/weekly_report_w4.md ; commits f9c0528 , 690452f , 67a4fce
23	Add screenshots documenting AI-assisted deep-study work	TBC	ai-disclosure/screenshots/Luu Ngo Quoc Bao/deep_study_hands_on_summary_*.png
24	Create the Manual UI Testing User Guide with BrowserStack and Claude Vision	TBC	UserGuide_UI_Testing.md ; commit d7e1d4a
25	Inspect SUT setup information and document ports, accounts, and coupon cases	TBC	UserGuide_UI_Testing.md ; commit d7e1d4a
26	Document human-audit, troubleshooting, and AI failure-mode controls	TBC	UserGuide_UI_Testing.md Sections 3-5
27	Add AI-use evidence for the UI User Guide	TBC	ai-disclosure/screenshots/Luu Ngo Quoc Bao/Screenshot 2026-07-11*.png

4. Team validation

Before signing off:

- ☐ Each task is owned by no more than two members.
- ☐ Every member has at least five tasks.
- ☐ Each member has entered actual hours for their own rows.
- ☐ The team has checked the Git alias mapping and commit count.
- ☐ The final percentages reflect tasks, hours, Git evidence, and work quality.
- ☐ The four final percentages sum to 100%.

☐ No grey/TA-only score field has been edited.

Student	Confirmation	Date
