

[AI-03] Individual AI Disclosure

Lưu Ngô Quốc Bảo - 23127327

Course: CSC13003 - Software Testing

Class / Group: 23KTPM4 / Group 03

Topic: T01 - GUI & Usability Testing

I disclose the following AI-assisted work recorded for my contribution:

Tool	Date / platform	Purpose	Content affected	My required validation
Claude Opus 4	2026-07-04 / Antigravity	Draft/update Manual UI Testing deep- study and progress content	DeepStudyHandsOn.md , weekly report, AI log	Verify the workflow against the actual SUT and remove generic assumptions
Gemini	2026-07-04 / Antigravity	Summarize the working session	AI-use log and progress notes	Confirm the summary and preserve evidence
Gemini	2026-07-11 / Antigravity	Draft the BrowserStack + Claude Vision User Guide and incorporate SUT configuration	UserGuide_UI_Testing.md	Verify commands, accounts, coupons, UI states, and every AI-assisted claim
Codex (GPT-5)	2026-07-23 / OpenAI Codex	Consolidate the final submission package	Sections attributed to me in slides/report; AI Audit pack and formatting	Read, correct, approve ownership, and ensure every candidate issue passes human audit

Evidence is included under `submission/assets/ai-evidence/luu_*`. The final-assembly session is disclosed in `AI_Usage_Log_Submission.md`.

I confirm that Claude Vision suggestions are hypotheses until manually reproduced. I remain responsible for the correctness of the UI-testing procedure, the SUT-specific details, and the final verdict and severity of any reported defect.
