

[AI-03] Individual AI Disclosure

Phạm Ngọc Gia Bảo - 23127027

Course: CSC13003 - Software Testing

Class / Group: 23KTPM4 / Group 03

Topic: T01 - GUI & Usability Testing

I disclose the following AI-assisted work recorded for my contribution:

Tool	Date / platform	Purpose	Content affected	My required validation
Codex (GPT-5)	2026-07-04 / OpenAI Codex	Create a Maze deep-study skeleton and plan a safe study draft without fabricated data	DeepStudyHandsOn.md , Maze draft plan, Week 4 evidence	Run the actual study, use only real responses, and keep placeholders clearly labeled
Codex (GPT-5)	2026-07-11 / OpenAI Codex	Draft the Maze User Guide and inspect the EShop SUT documentation	User_Guide.md on usability branches	Pilot the study, verify SUT facts, collect real evidence, and correct the guide
Codex (GPT-5)	2026-07-23 / OpenAI Codex	Consolidate the final submission package	Sections attributed to me in slides/report; AI Audit pack and formatting	Read, correct, approve ownership, and ensure no unsupported study result is added

Evidence is included under `submission/assets/ai-evidence/bao_*` . The final-assembly session is disclosed in `AI_Usage_Log_Submission.md` .

I confirm that AI-generated study structure is not participant evidence. I remain responsible for the accuracy of the Maze procedure, the truthfulness of any result added later, and my ability to explain the submitted work.
